

## **Sprint 4 Contributions Report**

**Name:** Brandon Phelps

**Group:** X

**Sprint Number:** 4

**Student ID:** 40215190

**Total Time Spent:** 12 hours

### **1. Frontend Development ( 5 hours )**

During this sprint, I spent 5 hours improving the UI as well as implementing the frontend based on the mock-ups which consisted of creating a button that will activate the download process which exports all the teams in a csv format. I also created another button that brings the user to their email application and copy paste the team member's email address simultaneously.

### **2. Debugging ( 2 hours )**

I spent 2 hours debugging and resolving issues that occurred during sprint 2

### **3. Meeting Minutes ( 3 hours )**

This is where we planned out task breakdown and selecting which tasks to complete during the sprint. We also worked on implementation clarifications

### **4. Code Review ( 2 hours )**

This is where I reviewed and gave feedback to other group members code when they submitted a Pull Request
