

## Blog – Individual Contribution

During Sprint 3, as the product owner, I was responsible for preparing all team documentation, including sprint planning, writing meeting minutes, writing acceptance tests, creating user stories, breaking down user stories into individual tasks and assigning them to team members, designing UI mockups for the frontend team, and providing the backend team with the necessary routes to be implemented.

Additionally, I focused on implementing unit tests for all features from Sprints 1 and 2.

Here is a detailed breakdown of my contribution hours for Sprint 3:

### **4 November 2024:**

- **Documentation:**
  - Sprint 3 Planning:
    - All user stories were written and broken down into tasks
    - The tasks were assigned to team members based on areas of expertise
    - The story points were selected using the "poker" method via an anonymous survey
- **Hours spent: 2**

### **5 November 2024:**

- **Documentation:**
  - Completed the mockup designs for all the pages/features of sprint 3 with high-priority
- **Hours spent: 2**

### **7 November 2024:**

- **Documentation:**
  - Re-assigned the remaining tasks to team members based on availability.
  - Completed the user story points based on the "poker" survey results.
  - Wrote the meeting minutes for the second meeting
- **Meeting:**
  - Met the team and did a follow-up on the features implemented.

Dara Dadgar  
ID: 40228407

- **Implementation:**
  - Corrected the linting issues for the CI workflow
- **Hours spent: 4**

#### **9 November 2024:**

- **Documentation:**
  - Wrote the required acceptance tests for sprint 3.
- **Implementation:**
  - Started the implementation of unit testing and its integration within the currently existing CI workflow.
- **Hours spent: 3**

#### **10 November 2024:**

- **Documentation:**
  - Finalizing the documentation required for sprint 3 and updating the main branch with the documentation files.
- **Implementation:**
  - Continued the integration of unit testing and improvement of the CI workflow.
  - Finalized implementation by updating the main branch with the most recent functional code.
- **Hours spent: 3**

**Total hours spent during sprint 3: 14**
